Much better than almost all his competitors

LOWEST PRINTING COST OF THE MARKET

With high capacity ribbons (1/3 YMCKO ribbons and 1/2 YMCKO ribbons)

Cover

Feeder

Thickness

Hoper

LCM Panel

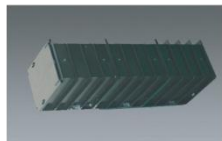

CARACTERÍSTICAS TÉCNICAS

• Printing Technology	Dye Sublimation/Thermal Transfer
• Print	Edge to edge
• Double side printing	Optional
• Color print	YMCKO, K, KO
• Printing quality	300dpi Display LCM (Liquid Crystal Monitor)
• Memory	64 MB
• Speed	Over 180 cards per hour (YMCKO) Over 1400 cards per hour (monochrome).
• Format	CR-80 ISO7810 (53.98mm x 85.60mm)
• Thickness	From 0.25mm to 1.0mm (10mil~40mil)
• Feeder	100 cards (0.76mm / 30mil)
• Output hoper	50 cards (0.76mm / 30mil)
• Operative System	Windows 2000, XP, Vista, Windows 7 (32/64-bit)
• Dimensions	197.8mm (Width) x 354mm (Length) x 204 mm (Height)
• Weight	4.9kg / 10.8lbs (options not included)
• Work environment	15~32.. (59~89.6..), 20~75% RH not condensed
• Color ribbon YMCKO	400 prints
• 1/2 panel YMCKO	280 prints
• High quality resin black	2000 prints (turning the ribbon)
• Encoders	Optional

OPTIONAL MODULES

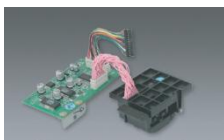

Flip over module

400 cards feeder module

Smart card encoder module

Magnetic Stripe encoder module

Mifare A&B encoder module

Cleaning roll
4 rolls per box
